-

Professional Experience

Frontend Vue.js Developer

A&B Leisure Inc. (Digiplus) | 2024 – Aug 2026

- Successfully delivered multiple high-impact projects, including GTCC and SEO Pages, supporting a platform serving 100K+ users/visitors and contributing to the company's revenue-generating digital products.
- Independently delivered major frontend projects within two months of regularization, demonstrating rapid ramp-up and ownership in a fast-paced production environment.
- Resolved 100+ frontend bugs and production issues over 2+ years, improving application stability and addressing critical functional gaps.
- Delivered multiple high-impact frontend projects under tight production deadlines, rapidly translating requirements and designs into production-ready Vue.js applications.
- Translated Figma designs and product requirements into responsive web and mobile applications using maintainable, component-based Vue.js architecture.
- Designed and developed reusable Vue.js global components adopted across multiple projects, improving frontend consistency and reducing duplicated development effort.
- Continuously developed new features and performance optimizations for the GameZone website and BingoPlus Poker page.
- Developed responsive H5 applications integrated with iOS and Android mobile applications, delivering mobile-first user experiences for GameZone.
- Actively contributed to high-priority fixes by resolving critical issues and closing functional gaps under tight timelines.

- Collaborated closely with Project Managers and Product Managers to clarify requirements, align expectations, and accelerate delivery.
- Mentored junior developers, contributing to improved team productivity and code quality.

Front-end IT Intern (WordPress)

Knowles Training Institute | 2024

- Developed and maintained websites, utilizing AI-assisted tools for content generation, refinement, and productivity
 - Collaborated with senior developers in an Agile team.
 - Enhanced UI/UX features and resolved technical bugs.
-

Major Projects

- **GameZone Tablegame Champions Cup (GTCC)** – Developed responsive H5 landing pages for GameZone Tablegame Champions Cup Seasons 1–3, supporting event promotions and improving user engagement.
Stack: Vue.js 3, Tailwind CSS, Axios, Vue Router
 - **GTCC Block Management** – Developed a CMS-connected H5 block management interface enabling dynamic landing-page configuration and reducing manual page development requirements.
Stack: Vue.js 3, Tailwind CSS, Axios, Element Plus, Vue Router
 - **GameZone SEO Pages** – Developed SEO-optimized pages for GameZone titles such as Pusoy, Color Game, Super Ace, and other original games.
Stack: HTML, JavaScript, CSS
 - **GZone Insurance Page** – Developed an insurance page supporting the application’s loan-related services and information.
Stack: Vue.js 3, Tailwind CSS, Axios, Vue Router
 - **BingoMini (Frontend)** – Developed the responsive frontend for an online Bingo platform, implementing interactive UI components and integrating frontend services using Vue.js, Axios, and Element Plus.
Stack: Vue.js 3, Tailwind CSS, Axios, Element Plus, Vue Router
-
